## INTRODUCTION

This is a listing of various psychological tests and related items available with or through **Manas Psycho Home** This list is prepared to keep the size within manageable limits and to give you an idea of the wide variety of inventory we possess or can order for you, and which would offer you a wide choice of instruments for your needs. Almost all the tests here are our proprietary items i.e. either published here or abroad, or distributed here by us for their respective foreign publishers. All tests usually contain several components, and are available in complete sets, or as loose supply of individual components. For many of the items, starter sets and Kit are also available, these may not always contain all the components but will be good enough for any preliminary evaluation. Some tests are also available in different versions and forms. Wherever possible, we have included information about related items or components, if these are in addition to one or more of the essential ingredients of the tests such as Test Booklets, Manual, Answer sheets, Profile sheets and Key. Such additional items may be ordered separately or as a part of the set as specified by you. If you write us after you make a choice of tests which may interest you, we will send you a fuller catalogue description and the current prices.

### Procedure to Order:

In your enquiry or order, you are requested to mention the Names of Test and the authors, and the page no. of the List and mention this source as LIST – 2018-19. As usual, most of these items are restricted, available only to qualified users and have different qualification levels. As a general rule, the items are sold without restriction to PG Departments of Psychology in Universities and affiliated colleges and Government institutions; Students and individual and/or private organization can get these only on bonafide authentication and/or recommendation from supervisors and qualified users respectively as necessary.

### Test User:

Tests need to be used by trained and qualified Professional in the field of Psychology. As Psychological Tests are very need expertise to be used on client. Psychological Test materials are used by hospitals, educational institutes, Psychiatrists, Psychologists, Clinical Psychologists, School psychologists, Neuro-Psychologists, Organizational Psychologists, Health Psychologists, and Forensic Psychologists.

### Registration Process:

## Psychological Tests Materials

S.NO	DESCRIPTION	PRICE ON REQUEST
MPH- 1	<p><b>Academic Buoyancy Scale (ABS)</b> Authors : ZebaAqil, Shah Mohd.Khan &amp; Divya R. Panjwani. Languages : English/ Hindi Set contg. 100 Booklets and 1 Manual</p>  <p>Time : 18-20 minutes Norms: Available in the manual which may be obtained from the publisher.</p> <p>Uses : Measurement of academic buoyancy. It may be used for research based on general population (age above 11 years), intervention and counseling purposes.</p> <p>Main features : 27 items on a 5-point Likert scale with value anchored 1 (strongly disagree) to 5 (strongly agree).</p> <p>Purpose : To measure Learners' potential to face challenges and difficulties that are regular in nature under educational settings or environment.</p>	

MPH- 2	<p><b>Learning Disability Screening Tool (LDST)</b>  By Dr. Rudresh M. Vyas, Dr.KetanBharadavaand Virang Bhatt.,  Age Range: 8 to 13 Years,  Language: English/Hindi  Time taken: 20 Minutes  <b>set contains:</b> 25 response booklets and 1 Manual</p>  <p>There are many Learning Disability tests available in the market which are costly and time consuming. Moreover, all tests are not standardized on Indian population. The present Learning Disability Screening Tool (LDST) prepared by expert psychologist and paediatrician who have more than 25 years experience in their respective fields.</p> <p>This newly invented Learning Disability Screening Tool (LDST) is especially prepared to identify the learning disabilities of children who are students of 3rd to 6th standards. This tool can be used by both teachers and parents. The tool itself contains questionnaire with total 17 questions with total 52 sub questions spread across 5 areas of Learning Disability. Administering this questionnaire leads to find out the lacks of reading, writing and mathematical ability which are known as Dyslexia, Dysgraphia and Dyscalculia respectively.</p> <p>The outstanding aspect of this tool is to find out the probability of Learning Disability of the children with 80% sensitivity<sup>1</sup> and 65% specificity<sup>2</sup>. The LDST recognizes children with Learning Disability scientifically and accurately. The tools that are available in the market now, do not have exclusive criterions for mentally and physically handicapped children. Whereas this test includes both, without any additional charges.</p> <p>1 – Sensitivity = ability of a test to correctly identify those with the condition.  2 – Specificity = ability of the test to correctly identify those without the condition.</p>

M-467	<p><b>Dealing With Conflict 2nd Edition – Self Assessment (Print Version)</b> Alexander Hiam</p> <p>Dealing With Conflict 2nd Edition paper/pencil assessment. Booklet. ,Dealing with Conflict is an ideal classroom style, self scoring assessment booklet for teachingprofessionals, managers, supervisors or employees how to work toward effective conflictsolutions. This instrument presents five conflict-handling styles that are effective ways of dealingwith conflict: accommodate, avoid, compromise, compete, and collaborate. Participants willlearn the positive uses of each style and when to deploy them</p> <p><b>Booklets Pack of 10</b></p> <p><b>Facilitator Guide</b></p>	
M-468	<p><b>EmotionalIntelligenceStyleProfile=SelfAssessment (PrintVersion)Packof10 Booklets</b></p> <p><b>Facilitator`s Guide</b></p> <p>Description: Emotional Intelligence refersto the complex mix of socialand interpersonal behaviors that incorporate intuition, character, integrity, motivation, communication ability, and relationship skills. Use this assessment to diagnose these social skills. You'll learn about four primary emotional intelligence styles: Conceptual, Reflective, Organized, Empathic, All people have the ability to use these four styles. The objective is understanding these four styles in order to use the most appropriate style in the right situation. This instrument will help you determine the degree of balance you display in your emotional intelligence. This new awareness can be used to enhance individual flexibility by increasing the repertoire of emotional responses available. Managers, trainers, consultants, and professionals from all walks of life will benefit personally and professionally from improving their emotional intelligence. The assessment booklet includes coaching suggestions on how to use each style most effectively. Tips are behavioral making measurable improvement attainable for all individuals.</p> <p><b>Team Conflict Strategies Inventory - Starter Kit</b></p> <p>Includes facilitator guide and six print self assessments, Facilitator Guide contents: Administrative guidelines Background information, Sample training design, Blank training outline, Sample copy of reformatted self assessment, CD-ROM containing reproducible content Microsoft PowerPoint presentation, Certificate of achievement template, Training evaluation template, Overhead transparency masters: tear-out pages from the back of the facilitator set that you can copy to create your own overhead materials, Convenient 3-ring binder format Self Assessment contents: Assessment Pressure-sensitive response form Interpretive information Action planning</p> <p><b>Learning Style Questionnaire (HRD Press) Self Assessment - Print</b></p>	
M-469	<p><b>Version</b></p> <p>Description : Learning Style Questionnaire provides the concepts and insight into adult learning that every trainer needs. Identify strengths and weaknesses in the ways in which you learn. Capitalize on learning strengths and improve in your areas of weakness. The Learning Style Questionnaire measures a participant's preferred method of learning in four different learning styles: ParticipatingReflectingStructuringExperimenting</p> <p>Each of the 20 questions asked in the questionnaire has four possible answers. Each of the answers represents one of four possible learning styles. By ranking the four possible</p>	

	<p>answers according to his or her degree of preference, participants identify their preferred learning style. This also represents the particular stage (or stages) of the experiential learning cycle in which they prefer to operate.</p> <p><b>Pack of 10 Booklets and Leaders Guide</b></p>
